## THE CATTLE EMBARGO.

In discussing the question of the cattle embargo before the colonial conference, Sir Wilfrid Laurier has rendered a distinctive service to Canada. He had no difficulty in establishing the fact that Canadian cattle can no longer be prevented from landing in Great Britain on account of any danger of the spreading of disease, and he made a strong plea against the unfairness of the present regulations, pointing out that after Canada had given Great Britain the preference under her present tariff, it was manifestly unjust that a trade barrier, especially of this kind, should be placed against us. In 1860, shortly after this embargo was established, Sir William Mullock, then Mr. Mullock, the member for North York, delivered an address in the House of Commons, in which he exposed the gross neglect of the inspection of Canadian cattle under the direction of the Dominion Government which was virtually made the cause, or the excuse, for the establishment of this embargo; but since that time the greatest possible care has been taken not only to spread any cattle diseases that might be in the country, but to prevent its escape into Canada from across the line, and for ten years Canadian cattle have been able to show a clean bill of health, so that now the only reason that can be assigned for the maintenance of this regulation is that it is used as a measure of protection to the British farmer who does not want Canadian beef to enter into competition with his home-grown article.

In a free trade country like England, we do not see what extra protection the British farmer should need other than the ocean which divides his country from ours and across which the cattle must be shipped in order to compete with him. Besides the fact that the embargo greatly reduces the profits of the cattle shipper, it is also a stigma upon the health of Canadian cattle, as Great Britain 'through the embargo expresses the belief that she does not believe it safe for our cattle to be landed alive in that country. On the other hand, if they are maintaining the embargo simply as a measure of protection, they ought to abolish it and impose a duty instead.

The conditions as they now exist are very discouraging to the Canadian shipper. After the cattle have travelled upon the railway from Western Canada to Montreal, and then to be shipped and undergo the hardships of the ocean voyage, they are in very poor condition for the butchers' block, yet they have to be slaughtered immediately upon landing, and there is no proper time is given to get them in good condition. This means that they have to be sold at a reduced price and that such a thing as prime beef is an impossibility in the British market unless the cattle are slaughtered in Canada and shipped in cold storage. If these cattle were allowed to be landed and fed into proper condition in the old land, the return to the shipper and, as a natural result, to the cattle raiser, would be a very considerable one.

The British farmer cannot begin to supply the most demand of the old country and there does seem to be any feasible reason why this very considerable export from Canada should be treated in the present fashion, and Canada's Premier has a vital interest in the country in which he brought this matter up and when he so strongly urged it upon the notice of the Conference, and incidentally to the British Government.

There is a good deal of encouragement in Mr. Asquith's reply to Sir Wilfrid, as he practically gave his pledge that the matter should be taken up and given the consideration it deserved by the Board of Agriculture. Mr. Asquith is personally in favor of the abolition of the embargo and had already urged upon the British Government the necessity of removing this trade barrier, and in his future contentions he will be greatly strengthened by the representations of Canada's Prime Minister and if the embargo should be removed, it will be practically the greatest service that Sir Wilfrid Laurier will have rendered Canada at the conference.

## INCREASED SALARIES.

The increase in the salaries of the city commissioners made at Tuesday's council meeting is only a proper one, the aldermen are to be commended for the spirit in which they made them. The position of Secretary-Treasurer of this city is important enough to command a salary of \$3,000 and the man who performs the duties well is easily worth that amount. The city should be willing to pay good salaries and then it has the right to ask for the best of service in return.

The position of Commissioner of Public Works, especially at this stage of laying the foundation as it were of all our civic utilities, is also a very important one and Mr. Fawcett's increase in salary to \$2,500 is certainly coming to the man who can give the city the service it requires in that capacity. The man who does the work well will earn it without any question. The salary paid to the Mayor, \$1,200, is also inadequate. There is also a danger in an elective position that a man may get in by some lucky who is not worth even a small salary, but the public can generally be trusted to remedy such a misfortune at the first opportunity and the Mayor who would do his whole duty by the city of Edmonton would easily earn a salary of \$3,000 a year and if he was paid such a sum the city would have the right to claim his whole time to public affairs, it would add importance and dignity to the position, and would command the services of our most capable citizens. The men who occupy public positions either civic or political have usually to make sacrifices in order to attain them and in some cases greater sacrifices to maintain them, and frequently capable men are deterred from public service for this reason. We can only obtain the best service by dealing fairly by our public servants.

## THE MAN WITH A POLICY.

From the treeless prairies in the north to the wooded plains of the south, from the foothills of the majestic Rockies on the west to the rolling hills in the east, Albertans of all parties unite in their admiration of a man and his policy.

The man is William H. Cushing, Minister of Public Works in the Alberta government, and the policy is that of the government ownership of the railways. The Mr. Cushing is the author of the Policy. The Policy means the undertaking of a business and it could not be in better hands than those of Mr. Cushing, who has ranked for many years as one of the foremost and soundest business men in the province.

As to the Man. He is a native of the county of Wellington in the province of Ontario. He went West in the early eighties and located at Calgary, then practically an outpost of civilization. Young Cushing's capital consisted of a good character and plenty of energy. He passed through the worst of the lean years in Calgary's history, he had a strong faith in the future of the Great West and of the city he had made his home. That business grew steadily and today Mr. Cushing is at the head of one of the largest manufacturing concerns west of Winnipeg.

Now as to the Policy. At the very first session of the first Parliament of Alberta, Mr. Cushing announced that the government was going to enter into competition with that great corporation, the Bell Telephone Company. Coming from Mr. Cushing, the public knew the statement wasn't a bluff. So they were not surprised that, in a little over a year's time, one branch of the government telephone system, that from Calgary to Banff, had been completed, and the construction of another line, from Coleman, in the Crow's Nest Pass, east to the historic town of Medicine Hat, had been commenced. The Alberta Government telephone system is already a reality and apart from New Zealand and a couple of the provinces of the Australian Commonwealth, is the only government system in existence amongst the colonies of the British Empire. As for Canada, Alberta has set the pace for the other provinces.—Canadian Courier.

## NOTE AND COMMENT.

Since the price of flour has gone up it is said that it takes more dough to fill the bread box.

Mr. Russell's Irish Council bill is a prelude to Home Rule and a lot of hot kicking by the Unionists and the Toronto Empire Club.

The Mail and Empire is now writing Liberal Conservative party with a hy-

phen. But it's no go. There's more than a hyphen separating the two.

Lord Minto should be well able to cope with the present disturbances in India. He came through the Dardanelles military in Canada.

It will be interesting to note if the citizens of Toronto, that high priestess of Imperial sentiment, will be able to reconcile their incoherent imperialism with the judgment of the Privy Council in the Toronto Street Railway suit.

Mr. T. W. Crothers of St. Thomas was chairman of the Ontario School Book Commission and though a lawyer refused \$2,000 for his services. Now what kind of dementia has this man got?

Sir Wilfrid Laurier, as usual, carried his point in the Imperial Conference, with regard to preferential trade. The Canadian Premier is not only the Boss Brummel and the Bayard among the colonial representatives, but is foremost in council. Canada is proud of him.

Premier Deakin's resolution asking for a one per cent. tax on foreign imports has been voted down. Premier Deakin appears to forget that Great Britain must remain the great rock in a weary land, the free trade ideal toward which other nations painfully stumble through a wilderness of protection.

The white man's burden has come home to the British Empire again. In 1857 we crushed the mutiny and sacrificed 100,000 human lives that we might lift the Hindu to a higher plane of moral and intellectual civilization. Half a century of beneficent rule in India has brought the Empire face to face with new conditions created by the success of that rule. It will be impossible to convince the brown man that he should not be governed by brown men.

## THE MIRROR OF THE PRESS.

The Minister of the Interior has borne with the folly of the Doukhobors. Doukhobor obstinacy cannot be allowed to dislocate plans for the settlement of the country or deprive law-abiding settlers of their rights. Hon. Frank Oliver has shown kindness and patience in his dealings with these people. Now Mr. Oliver is forced to show strength, and the best opinion of the country is behind his determination to uphold law and order.

(Calgary Herald)

The sentiments expressed by Sir Wilfrid Laurier imply a bond of Imperial union far stronger than any propaganda of a formal or official nature. His proof lies already in the fact that what has been an occasional Colonial Conference will now be held at regular intervals of four years. By this means the Imperial bond created will be strengthened from conference to conference by the preparation between while by each Colony of subjects for submission to the conference which relate to the interests of the Empire. The Premier has indeed struck the keynote of the best type of Imperialism.

**Standards of "Semi-ready."**

**Q You could not make a coat made**  
for the short man, in Type E, look  
well on the latter man, in Type F.  
There may be a difference of six inches  
in his height, and there should be a  
difference of several inches in the length  
of the coat. The waist of the short  
coat would set up near the shoulders  
of the tall man.

**Q The Semi-ready Physique Type**  
System, with its seven distinct types,  
in 35 variations, and 15 sizes of each  
variation—takes into account height  
and weight, and also the width and  
the shape of every man.

**Q A perfect fit and a finished appearance**  
cannot be obtained unless your tailor can  
possibly do it in his back shop.

**THE LATE MR. C. B. RECORD,**  
former in the second revenue.

Reproduced above is a portrait of the late  
Mr. C. B. Record, the inventor and originator  
of the Record "Semi-ready" system of  
tailoring. Mr. Record was born in Canada  
City, of Montreal, N.B., and Montreal,  
P.Q.

Previous to Mr. Record going into the  
manufacture of stoves, those used in  
Canada were almost wholly of American  
manufacture. The character of the work  
turned out by the Record Foundry &  
Machine Co., at once gave their stoves a  
reputation, and as a result a very large  
business soon grew up, largely owing to  
Mr. Record's untiring industry and per-  
severance against many obstacles.

Although Mr. Record retired from active  
business as far back as 1924, the solid  
basis on which he had established the in-  
dustry, has resulted in its growth. From a  
sturdy pioneer into one of the largest and  
most successful manufacturing plants in the  
Province of Alberta, with two large plants,  
one in Montreal and one in Edmonton, the  
Record Foundry & Machine Co. are known  
from Halifax to Vancouver, and from  
Edmonton to Calgary, and "Semi-ready"  
furnaces and "Penny Esther" ranges  
recognized as the standard of Canadian  
excellence.

**LOOK FOR THE "SIGN OF THE SLATE"**

**Q There is only ONE Slater Shoe—only one**  
"Sign of the Slate," and you should look for  
this Seal of Certainty when buying.

**Q The salesman who tells you different, wants**  
to sell you different shoes: his shoes may  
not be any more reliable than his word.

**Q Slater Shoes at \$5.00 carry a larger profit**  
to the buyer than to the seller—that is the  
way to build a good business.

**RENE LEMARCHAND**  
Sole Agent for the Province of Alberta  
Office over Northern Bank, Tel. 135  
Residence, 606 Fourth St. Tel. 101.

**BOX 1281. EDMONTON.**  
or to any real estate firm in Ed-  
monton. The owner has clear titles  
and tax receipts for all these lots.

**Q You could not make a coat made**  
for the short man, in Type E, look  
well on the latter man, in Type F.  
There may be a difference of six inches  
in his height, and there should be a  
difference of several inches in the length  
of the coat. The waist of the short  
coat would set up near the shoulders  
of the tall man.

**Q The Semi-ready Physique Type**  
System, with its seven distinct types,  
in 35 variations, and 15 sizes of each  
variation—takes into account height  
and weight, and also the width and  
the shape of every man.

**Q A perfect fit and a finished appearance**  
cannot be obtained unless your tailor can  
possibly do it in his back shop.

# RIVER HEIGHTS

## Now Offered For The First Time

A beautiful Residential Sub-Division within the City Limits of Strathcona and less than one mile from the Edmonton Post Office.

**RIVER VIEW LOTS UNEQUALLED IN THE PROVINCE OF ALBERTA.**

Choice homesites easy of access to either city. The construction of the Street Railway will bring them within 15 minutes of the business centres.

**Beautiful View Lots \$1000 each**

One Third Cash; Balance 6 and 12.

**Inside Lots \$25 to \$350**

**SEEK YOURSELF A HOME**

### RIVER HEIGHTS

The beautiful residential sub-division of River Heights is now being offered for sale for the first time at prices and terms which bring home sites within the reach of all.

River Heights takes in the south-easterly 30 acres of river lot 19, all within the city limits of Strathcona, and 50 acres of river lot 21, adjoining the boundary line of the city. A circle with the Alberta hotel for a centre and a radius of one mile cuts the property in the middle.

The inauguration of a street car service will bring all this property within ten minutes' ride of the busiest part of either city. The property which Premier Rutherford recently gave Strathcona for a park is right at the south end of the River Heights sub-division.

As a homesite nothing better has ever been offered. The prices are not inflated. They are placed low for a quick sale, but only a limited number of lots are to be sold and these will be placed, as far as possible in the hands of actual home builders.

Municipal improvements such as water, sewer, light, sidewalks, etc., will all be forthcoming within a year or so on account of the fact that home building is to be encouraged. The lots which are not sold on the first sale will be kept off the market until their improvements are secured and the owners will do everything in their power, by petition and a willingness to bear a fair share of the rates involved, to see that these improvements are secured at once.

This is not an "out on the prairie" proposition. It is right in town. If you care to see the property come to the office and take a drive over it with us. It will only take a few minutes of your time and may make you hundreds of dollars.

There are 11 view lots in R.L. 19 to be sold. These are a fine lot. They overlook the City of Edmonton, the parliament buildings and have a clear view of five miles of the valley of the Saskatchewan River. No other lots were ever offered at any price. These eleven are going at \$1,000 each, one-third cash; balance 6 and 12 at 7 per cent.

In block 5 of R.L. 19 there are a limited number to be sold at from \$300 to \$350; terms the same.

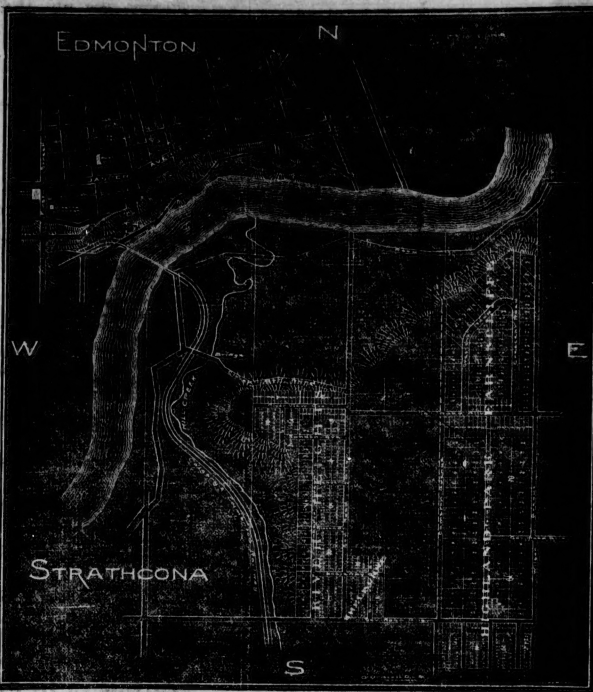

In blocks 4, 5, 6 and 7 the lots that are being offered will go at \$250 for inside lots and \$350 for corner lots. Size of lots, 50 x 100 feet to a 20 foot line.

In sub-division of River lot 21, lots are from \$125.00 to \$150.00 for inside lots, and \$200.00 extra for corners; size of lots, 150 feet by 3 chains.

There are 11 View Lots in R.L. 19 which will go at \$1,000 each, one-third cash, six and twelve months, seven per cent. interest.

### Abraham Ruef Pleads Guilty

(Continued from Page One.)

Schmidt and I stayed with the machine that I at great labor and pains had built up and assembled. I found then that I had taken away from the high and clear ideal with which I originally explored the political field. I found in short that to hold the machine together I had to permit and connive at corruption. In the state of affairs existing it was necessary. But I myself never asked a dollar of any man, never took a dishonest dollar from the public. The things that I did were things that hurt no one.

**Threatened the Board.**  
"Before the boodle board of supervisors was elected I warned them against crookedness in office. I immediately after their election, I found them all crooked and then I saw how I could keep the machine going and keep the machine from going to pieces. Schmidt was right about it. And so much of this corruption was needless. Needless, I mean from the view of the end. To be for the franchise, the trustee franchise. Everybody wanted the street railway electrified. That was the only thing that had opposition if the application had been purely and honestly laid before the board. It would have been granted. But the press of San Francisco had taught the public to believe that every office holder was a crook and that the whole city government was rotten from skin to core, that no privilege could be obtained unless it was paid for. It was strange that those systematic attacks, which frequently grounded on nothing more than personal suspicion in private quarters should have led the general public astray to the real situation. The officers, of course, are not bad men. They do not belong to the criminal class. They are more desirous to commit the crime of bribery than the newspapers or the public desire that it should not be permitted. That fact is necessary to the conduct of our business and that they are in no way to be blamed for it. It is to be believed that such privileges could be obtained without the exercise of

dishonest influences they frequently do commit the crime of bribery rather than forego the thing they desire.

**Vindictive Two.**  
"I do not think that Patrick Corral or Thorneau Mulhally or the officers of the two telephone companies or any one has committed the crimes charged. I have not made any confession. But I repeat that some of the many on which the most of the newspaper configuration has fallen were innocent of evil intent, but became involved by compulsion and these shall not be permitted to suffer the same and disgrace by any confession of mine. Others there are who went into the sunks with their eyes open knowing full well what they were about, and as to these I shall speak freely and fully when the time comes."

**Mr. Burns, of the prosecution, has just now asked if I was willing to go before the judge this afternoon and tell all. I told him I was certainly not. I don't fear the grand jury. When I have shaped my course and made up my mind in every particular as to how I shall act then I'll be willing to go before the grand jury, or before William J. Burns or Henry or any other they may appoint to tell them what I have decided to tell.**

**Not Afraid to Face Reproaches.**  
"I have no doubt that my action today, my determination to face about my future actions in this regard, will serve with many persons to brand me as a traitor and coward. I can only declare and maintain that my motives are good. I am aware that I have my enemies so bitter and powerful, I hope that I have, too, some friends."

**Ruef at this point again protested his innocence of taking money from the public without the right to do so. He has been convicted at public corruption, Henry was probably as much as Ruef as anyone by Ruef facing about the case.**

**Prosecution Buried.**  
"We," said Mr. Henry, "meaning the prosecution, had not the least intention that this was coming. I have no comment whatever to make upon Ruef's actions. The investigations by the grand jury will continue. One of the first calls on Ruef to do after the court episode was District Attorney William Langdon. He shook Ruef by the hand warmly and said to Ruef, 'You did a manly thing. I want to tell you now that anything you will do done willingly, gladly.' To the associated press Patrick Corral

born, president of the United Railways, said: "I have nothing to say at present regarding the remarks of Ruef."

**ANOTHER LETTER FROM THE MAYOR.**

Which He Admits What He Under-takes to Deny.

To the Editor of the Bulletin.

In your issue of yesterday's Bulletin this statement appeared:— "Mayor Griesbach made the announcement at the meeting of the city council last evening that unless the salary attached to the position of chief magistrate of the city were increased to \$5,000 per year he would not be a candidate for re-election next December."

This statement is untrue and misleading. I did make the simple announcement that I would not be a candidate for the mayoralty next year. This statement is definite, final and conclusive and the salary attached to the mayoralty next year does not in any wise affect my intention in the matter. Further on in the discussion with reference to the commissioners' salaries, I stated that I could not afford to be mayor a salary which per year with less than a salary of \$5,000.

I apprehend that this statement will apply to any person who, like myself, is dependent entirely for a living upon the practice of his profession or calling, and if such a person withdraw himself entirely from the practice of his profession or calling and his income from that source ceases he must needs receive a salary which permits him to live and meet his obligations.

The reader of the above mentioned paragraph, it occurs to me, would be led to the conclusion that I was either a pettifish child or suffering from a severe attack of "small pox." If that was the intention of the writer of the paragraph he may be said to have succeeded. If the whole matter is deemed of sufficient importance to merit a paragraph in your paper, and you desired to be fair in the matter, it occurs to me that you might have gone somewhat further and stated that I presented a committee of the council from bringing in a recommendation recommending an increase of salary to myself a year, a fact well known to the Bulletin.

Your obedient servant,  
W. D. GRIEBBACH, Jr.  
Mayor of Edmonton.

### THE RECORD CALORIFIC

manufactured especially for the heating of large halls and public edifices, is designed to thoroughly warm the greatest amount of cold air in the least possible time. Entering the flues, as shown in the accompanying cross section of the fire pot, the cold air is taken up through this heated column which overhangs the fire, as illustrated, thus coming in direct contact with all products of combustion, and insuring a very rapid circulation. This warmed air ascending straight through the flues in which it started, can be carried direct, with practically all its heat retained, to the furthest and coldest part of the building.

## B. C. COMES TO TERMS WITH G.T.P.

Agreement Regarding Reversionary Right of Indian Lands on Basis of Kaien Island Deal.

Montreal, May 8.—It is announced here that, while Premier McElbride was in the city arranging matters in dispute between the G. T. P. Railway Company and the British Columbia Government over Prince Rupert and Kaien and Digby Islands. Details are to be arranged on his return from Europe. The railway company was advised that it might win the contest in the courts over the claim of the province to reversionary rights in Indian lands occupied by the railway but was desirous of avoiding a long drawn out conflict. The terms agreed to are that when the company settles with the Indians, the province will invest its title to the property to the railway on the same conditions as governed the sale of 10,000 acres on Kaien Island sold to the railway company by the province. That a quarter of all lands townshipped shall revert to the provincial government, the choice of land to be made by the provincial authorities in the usual manner affecting such reversion. Prince Rupert will not, therefore, be standard.

## Construction at Saskatoon

(Continued from Page 1.)

are being put in for the increasing business of the city. Two of these sidings have been completed. The depot platform is being lengthened to double its old size. The round house has been enlarged and a new span is being prepared for the north end of the bridge. There is talk of relabelling the entire line from Regina to Prince Albert and replacing the present steel by heavier. Something definite may soon be looked for, however, in a few days, when D. D. Mann, Vice-President Hanna and Chief Engineer McLeod will make a tour of the line to size up the situation for themselves.

The H. H. Campkin company, limited, of Indian Head, real estate and finance, will open an office in Saskatoon. The local manager will be M. G. MacVicar, of this city. The firm of MacVicar & Davidson have dissolved partnership. Mr. MacVicar to take the above position and J. A. Davidson will go to Winnipeg.

## Estimated Cost of Big Canal

(Continued from Page 1.)

The engineers have been able to solve the chief engineering problem of the canal, namely, the question of maintaining a sufficient water supply across the height of land between Lake Nipissing and Trout Lake. It has been found practicable by conserving the flood waters of the Ottawa river to maintain a continuous and adequate supply of water during the whole season of navigation without having to excavate from Trout Lake to the level of Lake Nipissing, which would have involved the expenditure of an enormous sum.

Almost Equal to Niagara.  
One of the most interesting features of the report will be the statement that it will be easily possible at a moderate expenditure to considerably reduce the flood level of the Ottawa and increase the low water level by a system of dams and control of tributary waters. This would result in increasing, wonderfully, the value of the water power now available, would prove of great benefit to the lumbering interests of the Ottawa valley and would also serve to materially raise the low water level in Montreal harbor. It is estimated that with the completion of the canal there will be 50,000 horsepower available along its course, almost as much as is available at Niagara. With so much cheap power available, and with its great resources of iron ore and timber the Ottawa valley would undoubtedly become one of the greatest manufacturing centres of the continent.

Referring to the early construction of the canal Sir Wilfrid Laurier recently said that if he had the money to do so he would begin work tomorrow.

## MR. JOSHUA PETERS

General Manager of Record Foundry Co. Mr. Joshua Peters, General Manager of the Record Foundry and Machine Co., of Montreal, N.B., and Montreal, P.Q., was one of the original incorporators of the company when it was first organized in 1887. Since then they have erected a branch in Montreal. The Record Foundry and Machine Co., as manufacturers of the "Caloric" and "Admiral" furnaces and "Eaton" ranges, are recognized as one of the largest stove manufacturing concerns in the British half of the North American continent.

# ALWAYS TO THE FRONT WITH THE BEST AND CHEAPEST

## Mount Lawn

### Nearer the City than any Packing Plant Property on the Market

North End Four Blocks West of Packing Plant.

## LIST YOUR FARM LANDS WITH US.

## THE CITY

### LOCALS.

The goods and chattels of the Prince Arthur Club will be sold by auction on May 15th.

Miss McCall, of the Department of Agriculture, has been appointed telegrapher to the Beef Commission.

Hon. W. T. Finlay received a telegram last night from Belton with the news that his brother was dead.

Mrs. Pugh's music kindergarten class meets at the Alberta College on Tuesday and Friday afternoons at 4:10 o'clock.

Mrs. John Hart and daughter left last night for Anbert, Man. Mr. Hart has been ordered arrested by her physician.

J. J. Jordan, of Lacombe, has been running in training for the races at the Exhibition stables. They arrived on Saturday.

The Red Cross ambulance removed to the Public Hospital yesterday Mr. Hoffman, corner of Manitoba and Edmonton streets.

The man Buchanan, who had his leg broken some days ago by the kick of a horse, has entered the General Hospital for treatment.

R. M. McGregor, of New Glasgow, and member of the legislature of Nova Scotia, is visiting in the city. He is accompanied by Messrs. Finlay and Mr. McNeill.

S. F. Munson took out a permit this morning for a \$2500 horse race. First street between Peace and Athabasca avenues. John Hart was given a permit for an \$800 house on Second.

The warm weather is causing a great rush of settlers to the country districts. Several parties are going out daily looking for homesteads and farm lands.

Had shape in many districts, but seedling is progressing rapidly.

Charles G. Macdonald, of St. John Smith Co., purchased Gem Prince, a fine City of London, for \$2000.00. Gem Prince won the silver medal at Winnipeg, and will be kept during the summer season at Auctioneer Smith's stock yards.

Mr. and Mrs. J. Chemier, Sixth street, entertained this week a number of friends at an enjoyable party in honor of Mr. and Mrs. Joseph Charbonneau, who were recently married at Fort Saskatchewan.

Mr. Charbonneau was Miss Amelia Campbell.

The St. Paul's Football Club will hold a meeting in the church after practice this evening. Business of special importance is on the agenda.

The formation of a second team for the Intermediate League games. All members and any others who are interested in football are cordially invited to attend.

The young men of the First Presbyterian Church are asked to meet at the old church grounds on the corner of Victoria ave. and Fourth street tomorrow evening at 7 P.M. to prepare the grounds for a Lawn Tennis Court.

The Young People are organizing an athletic society for the season of which this will be a portion.

Beside the additions already mentioned, the Exhibition Association is making many improvements to their premises. Three new rings are being leveled off—a driving ring for light horses, a show ring for cattle and one for heavy horses. The grounds around the city are being leveled and an entrance is being built in the center of the main grand stands for the reserved seats.

### PERSONALS.

C. J. McKinnon, Teled, is at the Pemmican.

Harry Corbin, of Leavies, Alta., is at the Alberta.

Dr. J. R. Barrett, of Winnipeg, is at the St. James hotel.

W. J. Craig, a Banffville, Man., contractor, is in the city.

J. McCulloch, of Belmont, is in the city on a business trip.

P. E. Ross and W. J. Munson came up from Brandon yesterday.

W. Forbes, the Wetaskiwin barrister, is a guest of the King Edwards.

W. H. Ashdown, the Vegreville plumber, is on a business trip to the city.

Mr. and Mrs. L. D. McFarlane left by last night's C.N.R. train for St. Louis.

James Whitehead, a Lloydminster business man, came in last night on the C.N.R. train.

J. H. Butler and Mrs. Butler, of Ottawa, are visitors in the city, guests of the Windsor.

Mrs. N. Asselin, M. Bertrand, of the St. Albert Hotel, St. Albert, were in the city yesterday.

J. W. Wolf, M.P.P. for Cardston, came up from the south yesterday. He registered at the Alberta.

E. E. Vincent, Alberta manager of the Oil Specialty Company, of Toronto, is on a business trip to the city.

Rev. R. McCull, a graduate of Brandon College, arrived in the city last night. He will supervise the erection and organization of the Baptist church on Syndicate avenue.

P. H. MacNeil, H. J. MacNeil, R. M. MacIntyre, of New Glasgow, N.S., arrived in the city last night. They are among New Glasgow's best known business men and are on a trip through the west with a view to locating.

Mr. and Mrs. Peter Dukelow, of Prince Albert, registered at the Castle last night. Mr. Dukelow has a grading contract on the Grand Trunk Pacific at Clever, Man. They are accompanied by the Misses Nellie and Marie Dukelow. They drove down to Clever on Saturday.

### COMMERCE WORK NEXT WEEK.

The machinery for the J. J. McLaughlin Co. works on Bellamy street has all arrived and is now being placed in position. The firm will manufacture all kinds of serrated wheels and sprockets, which they export to the land, the manager, says the steam will likely be turned on next week.

TO BUILD WAREHOUSE.

Kennedy Bros., of Summerside, P. E. I., have purchased a number of lots at the corner of McCall and Athabasca streets, where they are erecting a wholesale warehouse this summer. J. D. Kennedy has been in the retail business in the East and has disposed of his interest there.

STRATHCONA BOARD OF TRADE MEET.

A meeting of the board of trade council was held yesterday afternoon. The main object was the drafting of resolutions to be submitted to the Associated Boards of Trade convention.

Several of the members of the committee having that matter in charge were not present this portion of the business was allowed to stand over on Wednesday, Thursday and Friday, making the last session of the board of trade on Saturday.

The council considered the application of new members and decided to recommend their names to the board. It was decided to offer a prize for the best kept premises in the city.

The city council and the mayor will make further decisions on that point. It was decided to take two pages of advertising in the Hamiltonian directory, now being prepared. A number of other minor matters were also disposed of.

THE POLICE DUTIES.

By the addition of the new men to the Strathcona police force, the duty has been reduced. The Patterson is now on duty from 7:30 a.m. to 3:30 p.m. and Officer Harris from 3:30 p.m. to 11:30 p.m. and Officer Harris from 11:30 p.m. to 7:30 a.m. during the night work.

The sanitary inspector, Mr. Turnbull, works at all times required of sanitary work, but also has police powers when called upon.

NEW FIRST STREET BUILDING.

S. F. Munson, of Pendergast, Man., S. F. Munson, has taken out a permit for a building on First street.

The building will be 24 x 40 and two stories high. Mr. James McCulloch, proprietor of the popular Belfast House on Fifth street, has secured a lease of the building and will open an ice cream parlor and confectionery stand on the first floor. The second floor will be rooms and offices. McCulloch & Keyes are the contractors. The building will be finished by June 1st.

CITY MARKETS.

Baled hay in car lots: Slough, \$12 to \$14 per ton; upland, \$14 to \$16 per ton; timothy, \$14 to \$16 per ton.

Low hay and fodder: Slough, \$14 to \$16 per ton; upland, \$16 to \$18 per ton; timothy, \$16 to \$18 per ton.

Light horse and cow: \$10 to \$12 per head; \$10 to \$12 per head; \$10 to \$12 per head.

Produce: Eggs are firm at about 25c; Butter continues about 25c; Potatoes, 25c to 40c; Peas, 10c to 15c.

Live stock and poultry: Beef, 4 to 5c; Pork, 5 to 6c; Lamb, 6 to 7c; Chicken, 10 to 12c; Turkey, 12 to 14c.

PRISONERS FOR THE FORT.

The lad, John Personette, convicted of the police court yesterday of stealing bicycles and sentenced to 12 months imprisonment was last night taken to Fort Saskatchewan barracks where he will be imprisoned.

The younger brother, who was also arrested, showed that he had purchased his wheel from the son of Rev. Mr. Hagar, and was therefore released.

The owners of the stolen wheels have been identified. The one which was stolen caused some trouble to the police in placing has been found to be the property of the Northwest Electric Company, which it was returned.

Three months for issuing worthless Saskatchewan tickets. Anderson has been made restitution to the men from whom he had obtained same, and as a consequence he was given a lighter sentence than he otherwise would have received.

INTEREST CHURCHES.

To the Editor of the Bulletin.

Sir—I was much gratified to see Mr. M. J. Zanetti's letter in your issue of today.

In the old country in many towns, owing to the police supervision, the refusal of the officers of the Society of Prevention of Cruelty to Animals, cause of cruelty to the animals are few and far between.

I would suggest that if the churches could give a good kind, both for children and adults, to undertake the objects of being kind to all animals and also to seek by calling attention to the rights of the creature that is under their jurisdiction. Education held in this way by leading in a good sense, and the lawless animals who cannot in many cases, help themselves, be greatly benefited.

I should be pleased to assist in the making of any such society. I have to enclose my card and have the honor to remain.

Yours faithfully,

May 15, 1907. KEBURA.

## CORE R STONE OF NORMAL SCHOOL

In Calgary will be laid on Empire Day by the Lieutenant Governor.

His Honor Lieutenant Governor Ingham will lay the corner stone of the new provincial normal school at Calgary on Wednesday, May 23rd.

Construction upon the foundations has been in progress since March. The school will be a solid stone building throughout and will cost \$150,000.

Chap in first cost as common wood shingles, yet more durable than slate. Sold under a written guarantee that they will last something to the buyer.

The school will be a solid stone building throughout and will cost \$150,000.

## NEWS OF BUSY WEST

### CALGARY.

A flock of seagulls that have evidently wandered over from the Pacific have been about the Bow river for some days.

During the past two months 107 new light connections were made with the municipal plant, and in addition six power motors were installed.

The Banff Springs hotel on the C.P.R. has opened for the season. Three carloads of employees went through Calgary recently to take charge.

Two Royal tourist automobiles arrived last week for Messrs. Bricker & Davidson of the C.P.T.C. Co. These are two of the largest and most powerful cars in the city.

The new channel which has recently been added to St. Peter's church at Okotoks was formally opened for service May 12 by the bishop of Calgary and the Rev. G. H. Hoggins.

### HIGH RIVER.

Sergt. Thomas, R.N.W.M.P., has been detailed to take charge of the High River post.

Three splendid lynx were shot near Brant last week.

Mrs. Archie Campbell and children have arrived from Kinross, Ont., and will make their home in Alberta.

An assembly of retail lumber merchants here has resulted in lumber jumping in price from \$3 to \$5 per 1,000 feet.

### SOUTHERN ALBERTA.

Town irrigation is an important subject on the carpet now at Raymond.

A gasoline pumping engine has been ordered by the Raymond town council from Calgary.

The district license commissioners are holding meetings at various points, granting licenses to applicants.

A section of land and coal near Taber bought not long ago for \$10 an acre, sold last week at \$110 an acre.

The marriage took place at Macleod recently of W. G. Malone, manager of the Northern Bank, and Miss Mildred Sankey of Toronto.

A building boom is on now at Tabor. The town is making such progress that it already looks forward to incorporation as a city.

A farmer recently located near Chinle on a farm of 7,000 acres he purchased. He has a steam plow at work, and will cultivate 3,000 acres this year.

The death occurred at the family home, Davidson, on May 6, of Isabelle, wife of Morris Stewart, one of the earliest settlers of that district, and one of the best known of the ladies of that community.

### BLUEBERRY.

Seedling and gardening have commenced at Stoney Plain.

Mr. Appenzler received a carload of freight the other day.

A new school is to be erected at Stoney Plain in the near future.

Mr. Albert Wurtz of Stoney Plain is now clerking in Miller Bro's store. Messrs. Minnie and Mary Ingle were visiting at Stoney Plain the other day.

Mr. Hatley, who passed through on Friday last on his way to Edmonton, returned to-day.

Messrs. Andrew and Edward Kotch are engaged in digging a well for Mr. Philip Kulak.

Mr. Donald McLeod, who has been

working for Mr. Latimer, has been promoted to the post of foreman.

Mr. and Mrs. M. E. Ingle, who went to Edmonton last Tuesday, have returned after an enjoyable stay in town.

Mr. Bernard Miller has been unable to work his farm for the past few days, but we are glad to see him out in the fields again as busy as ever.

Mr. Fred Radcliffe and Agatha Fitzpatrick were united in marriage on Tuesday evening, May 7. Mr. and Mrs. Radcliffe will reside at the home of the groom's parents for the time being.

Spring has come at last. The farmers are busy tilling their fields. The snow storm on May 9 and 10 surprised the farmers somewhat, but was welcomed by many, as it was more like rain than snow.

J. W. Hubble has purchased a claim on section 20, Blueberry, S.D., and has built a shack on it with the intention of latching there in the near future. In time he will have quite a good homestead.

Mr. Otto Wolf of Glory Hills had a mishap while driving in the town of Stoney Plain lately. Mr. Wolf tied his horses up to a hitching post, and while trying to back them out one of the horses became stubborn and laid down. Fortunately there was no damage.

### SASKATOON.

Mr. and Mrs. Robert McIntosh are now in Gibraltar on their trip to Rome.

During April 19 applications for homesteads were received at Saskatoon. 27 applications for homestead patents being entered.

The H. H. Campkin company have secured a business stand here. This will be their fourth branch house from the main establishment at Indian Head.

Lumber is going out to the country in all directions, and right here nearly everyone is building something. It isn't a house it's a verandah, and if it isn't a verandah it's a coal shed.

The Young Men's Liberal club held their first annual banquet on Friday. 150 guests were present. Hon. J. A. Cullen, Geo. E. McCroney, M.P., and several members of the legislature attended.

### HAPPENINGS IN OTHER PLACES.

Dr. Welch has resigned the appointment of Coroner for Okotoks district.

John L. Beane, hired on the farm of Theo. Young, committed suicide on Saturday.

Yorkton council has authorized Engineer White to come at once and prepare plans for a waterwork and sewage system.

# Spring Clearing Sale, Thursday, May 16th to Saturday, May 25th

The unusually backward spring has resulted in us finding ourselves with an entirely too heavy stock for this time of the year, and in order to make room for our summer display, we are putting on a gigantic money-saving sale, beginning Thursday of this week and continuing until Saturday the 25th. This will be a genuine bargain sale of New Goods only, presenting a splendid opportunity for careful shoppers to lay in a summer's supply at less than eastern prices. We must move some of our stock at once. These prices will do it. We need the room. Our loss will be your gain. Our advice to you is **SHOP EARLY**.

**DRY GOODS | MEN'S FURNISHINGS | BOOTS AND SHOES | LADIES' READY-TO-WEAR APPAREL | HATS, CAPS, TAMS**

## DRY GOODS SALE.

Below we quote a list of the values we are offering in these goods. These are all new goods, and were the very best value in the city at the original prices. The only reason for these special prices is the fact that we simply must have more room for summer goods.

The Store That Sells For Lowest Prices

W. Johnstone Walker &amp; Co.

# NEW YORK STOCK COMMENT

Reports of Warm Weather in Spring  
Wheat Belt Causes Setback in  
Wheat — Interstate Commission  
Report.

New York, May 15.—There was a short-lived period of excitement in the stock market today. This followed the appearance of a published abstract purporting to give the substance of the forthcoming report of the interstate commission on the results of the Harmin inquiry. Professional operators seized with avidity on today's publication and forced a rapid decline in prices, but by Union Pacific itself. Both the wheat and cotton absorbed a large share of the speculative activity. Forecasts of warmer weather in the spring wheat belt seemed to have a conclusive influence in forcing back the prices of wheat. The persistent foundation in the wheat market had the influence on the stock market, and there were comprehensive recoveries from the early declines before the market broke on the Harmin report. The effect of that factor was modified when the recommendations described were said to be not yet adopted by the commission itself. The late recovery of the market was due principally to covering of short contracts. Delaware and Hudson was subjected to some further severe pressure, as an outgrowth of the dispute at the stockholders' meeting yesterday, and of indications of a coming bond issue by the company. Some of the metal and mining stocks showed strength on account of trade conditions. There was no important change in the money conditions. Bonds were heavy. Total sales per value \$1,049,000. United States bonds were unchanged on call.

## CHICAGO WHEAT.

Bears Dominate Pit.—Decline of Two Cents.—Primary Receipts Large. Associated Press Dispatch.

Chicago, May 15.—Renewed profit taking caused a decline of more than two cents a bushel today in the price of the leading option. Much of today's market, unlike that of yesterday, failed to recover from the setback, closing prices being at almost the lowest point of the season. Trading in the wheat pit looked speculative in display, but the volume of business was exceedingly heavy. The market was characterized by a disposition to advance, the general tendency was toward a decline. Profit-taking by local and outside long formed a conspicuous part of the selling movement. The market opened weak on a decline in the price of wheat on the Minneapolis cable. During the last ten minutes of trading the market was subjected to a severe selling attack, and under this pressure dropped to a new low point for the day. The market closed weak, with prices only a trifle above the lowest mark. Clearances of wheat and flour were equal to 43,000 bushels. Primary receipts were 500,000 bushels, compared with 410,000 bushels the corresponding day a year ago.

## NEW YORK WHEAT.

New York, May 15.—Wheat receipts, 107,000; sales, 3,000; futures, quiet. There was much less excitement in wheat today. Much of the time, in fact, trade was quite normal. A break of over half a cent a bushel was identified with clearing and warm conditions in the northwest, a low or high Post market and heavy unloading. The final prices showed 1-5 to 2 cents net last. May closed 102-3-4, July 100-7-8 to 101-2-8, closed 102-7-8; Sept., 100-5-8 to 101-1-8, closed 100-7-8; Dec., 102-2-8 to 103-4-8, closed 102-2-8.

## SECURITIES.

New York, May 15.—Close: prime mercantile paper 8 1-2 per cent; sterling exchange firm at 48-30 to 48-30 for demand, and at 48-30 to 48-40 for sixty day bills. Postal notes, 48 and 48. Commercial bills, 48-1-4. Bar silver, 65-58. Mexican dollars, 50-12. Government bonds steady. Railroad bonds heavy.

## LOANS AND CALLS.

New York, May 15.—Money on call steady, highest 2 1-2 per cent, lowest 2; ruling rate 2 1-4. Last loan 2 1-4, closing bid 2; offered at 2 1-2; time loans dull and steady; sixty days 4 to 4 1-4 per cent; and ninety days 4 to 4 1-4 per cent; six months 4 1-2 to 4 3-4 per cent.

## FALL WHEAT AT MACLEOD.

Macleod, May 15.—Fall wheat in most parts is looking very well, but in other places it is thin and did not pass through winter so well. As a whole, the fall wheat will make a better showing than last season.

## MISCELLANEOUS.

Boon firm, strained common to good 400. Turpentine weak 65 to 65 1-2. Pig iron firm; copper dull. Lead dull. Tin dull. Straights 245.00 to 244.00. Rubber dull.

## COPPER.

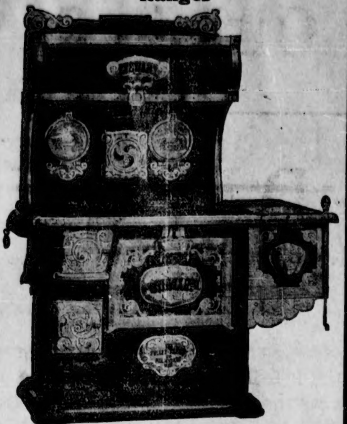

Boston, May 15.—Copper stocks were unusually quiet today, and prices generally showed a slight decline from yesterday. The market was decidedly slow and lacking in animation.

## AWAY WITH FUNDS.

Brandon Official Mysteriously Absent.—Are Funds?

Brandon, Man., May 15.—City Assessor and Publicly Commissioner Marrow is mysteriously absent from the city and has been gone several days. He has in his possession between five and six hundred dollars of public funds secured by collect given by the citizens, as well as funds realized by cashing notes endorsed by friends.

## ANOTHER PLOT AGAINST CZAR

Soldier of the Guard Regiment Confesses to Accepting Bribe to Kill Emperor

St. Petersburg, May 15.—(Associated Press Dispatch.)—A terrorist conspiracy directed against the life of Emperor Nicholas, the well-known of which has been suspected for some time past, has been revealed by the arrest at Tsarskoye-Selo of a soldier of the guard regiment. The man confessed to the acceptance of a large money bribe to assist in the murder of his majesty. According to the existence of which has been confirmed by one of the highest officials of the court, suspicion was directed to the soldier by the fact that he was seen to have in his possession, considerable sums of money. He was at once placed under observation.

**Confesses Whole Plot.**  
When he noticed that he was being shadowed, he became panic stricken and sought the authorities, then broke down and voluntarily gave his confession, after which he begged for execution.

**Real Investigators Not Apprehended.**  
All the threads of this conspiracy, which is radically different to former attempts of this nature, are not yet in the hands of the secret service men. A few underlings have been apprehended, but the real investigators of the crime and the men who furnished the blood money have not yet been approached. It is thought that the money used is part of the proceeds of several political robberies committed during last fall and winter. Many of the participants in these so-called "expropriations" have been arrested and executed, but the lot was never located.

**Police are Silent.**  
The police officials maintain a mysterious silence when questioned regarding the conspiracy. They refuse to either affirm or deny the story, and limiting themselves to stating that there are indications that the men arrested last week in this city were connected with the conspiracy. This statement coincides with information obtained in the revolution circles, where it is declared that the men apprehended last week were connected with the reorganization of the fighting bands of the revolution which the police succeeded last year in breaking up, and that the authors of the present conspiracy must be sought outside of St. Petersburg.

## COMPETITION SUPPRESSED

Recommendations of Interstate Commerce Commission on Harriman Railroad Investigation.

New York, May 15.—A portion of the recommendations of attorneys Paul H. Kellogg and Charles H. Smith to the interstate commerce commission concerning the Harriman railroad investigation, has been published. It reviews the testimony and holds that railroad competition has been suppressed in an area equal to one-third of the United States; that the contracts between the Union Pacific and Rock Island for control of the Alton railway, as well as the contracts between Union Pacific and Southern Pacific, and the steps taken for the control of Illinois Central and San Antonio and Texas Central, all in violation of the Sherman anti-trust act. It recommends that the attorney general institute proceedings to annul these agreements. It also recommends that there should be new and effective laws to prevent inflation of securities, and declares that the profits of the great railroads of the far west are being used to buy stock, and control stock systems in the east, instead of building more roads for the development of the west as they should be.

## Sporting News

(Continued on Page Eleven.)

wide and half time was called without further scoring. All Saints opened the second half with a line of combination work that cheered the hearts of their supporters and ended in a goal by Marden in ten minutes. They could not stand the pace, however, and the Calcuttians scored again after a good rush in which Yates put one through a post from 40-yards.

**LADIES' FIRST BALL CONTRACT**  
The first baseball contract that Napoleon Lajoie ever signed was written on the back of a common envelope and called for Larry's services for the sum of \$100 a month. The story of how Lajoie broke into the professional game was told by Charley Marston, of Fall River, Mass., as he sat in the grand stand at Central Park at Atlanta, recently, and watched the team, managed by his prototype, go through its daily practice stunts.

Back in January, 1906, Marston, then manager of the Fall River club, and Seale, then manager of the Boston Nationals, dropped in to the office of the sporting editor of the Boston Herald. A few other baseball men were there, including Woodcock, who was once a ball pitcher at Brown university. "Do any of you know of any good players that would do for a club?" asked Marston. "I know of a good batter," replied Woodcock. "I don't know his name, but he is a big Frenchman that lives down at Woonsocket."

"I call myself a pretty fair pitcher, but I haven't anything that I can't put all over the field. I can't get the ball past the plate." As they left Seale rather discouraged Marston, in going after Larry, Marston, however, could not get Woodcock's tip out of his mind, and the next morning he went down to Woonsocket.

He did not know the name of the man he was going for, and when he reached the town of 40,000 he had no inquiries at the depot, but without success. Next he visited a newspaper office, but there they did not seem to know whom he meant. Finally he stopped into a cafe, and when he said he was after a big Frenchman that could hit the ball about a mile he was told that he must mean "Larry" Lajoie. He next went to where Larry was employed and then he was summoned. Marston had neglected to take a contract with him, but an envelope was brought into the room and the greatest ball player that ever lived signed up on that. "I asked him where he wanted to play," continued Marston, "and he said he wanted to play second. As I had a good second baseman, however, told him that there was no chance, and he replied that he could play any place but pitcher."
